

Over
\$51,000
raised

at the fifth annual **Baskets with Panache!**
auction held June 15, 2011
at the Canada Agriculture Museum

All funds collected will be used to provide underprivileged children from the community with an unforgettable hands-on farm experience through the Museum's school programs and summer day camps. The proceeds will cover the costs of program fees, transportation, supplies, and equipment - for thousands of children, who otherwise might not have the opportunity to see all the wonderful farm animals for themselves, while also learning why agriculture is so important to our daily lives.

Since 2007, the event has raised \$176,000, providing more than 12,500 children the opportunity to participate in exciting educational experiences.

Thank you to our sponsors, official suppliers, basket contributors, attendees, volunteers, and the Planning Committee!
